4 Right click - 'Create Directory'. Type your name without using capital letters (dave and NOT Dave).

5 Double click on the folder you've just created.

6 On the left panel go to your Desktop folder called Beginner Web Design

7 Select all the files & folders and drag n' drop them into the right panel.

8 When upload is done, check that your website is online at www.webcoursesshowcase.com, click on trainee sites, find your name and check if looks ok.

9 Click the icon to disconnect from FTP server.

Go to <http://validator.w3c.org>

Copy your site URL into the checker and click CHECK.

If any errors shows up, go back to Dreamweaver, correct the problem and then re-upload the file (e.g. index.html).

Re-check and let the instructor know when your site passes the validation.
